

Natural Wonders

Directions: Solve the scrambled words by using the lyrics from the song "Natural Wonders" as clues.

Each year there are millions of people that come to see this
 If you're ever in upstate New York, this water spectacle you should not miss
 The river that this falling water feeds
 Is the world's greatest source of hydroelectricity

L L N A A F S G A R I A

The Colorado River carved it five thousand feet deep
 Its valley is like the desert; it's not a nice place to sleep
 Millions of visitors every year
 Come to Arizona to see it there

C N G R N O D A A N Y

They're around two thousand miles long
 A Continental Divide
 The start for many rivers; they run down its sides
 Found in Montana, Washington, Idaho,
 Wyoming, Utah, New Mexico and Colorado

M N O U R O C T A I Y N S K

Natural Wonders Cont'

20% of fresh water on the surface of the world is here
10,500 miles; that is how much shoreline is there
Check a map and five you will see
Superior, Huron, Ontario, Michigan and Erie

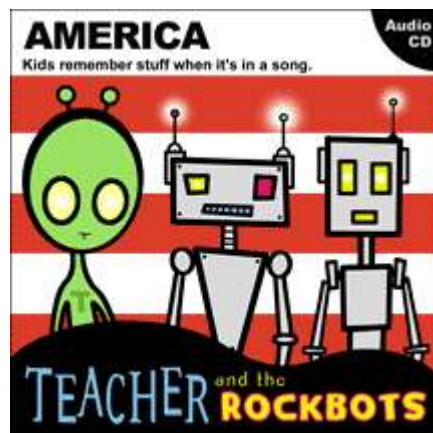

L A A G K E S T R E

A source of irrigation; third longest one on the earth
Important for transportation; steamboats could travel North
Cities were built near them long ago
It drains into the Gulf of Mexico
